

Dear Customer,

Aqua will be performing lead and galvanized service line replacements throughout the following municipalities:

- Coolspring Township
- Findley Township
- Pulaski Township
- Shenango Township
- Mercer Borough
- West Middlesex Borough

Work will start in November of this year and wrap up in Spring of 2026.

This work is part of Aqua's commitment to improving water quality and infrastructure. **If a property is identified as having a lead or galvanized water service line, it will be replaced at no direct cost to the customer.**

Residents may be contacted by Aqua representatives or contractors to coordinate access and scheduling. Participation is essential to help ensure safe, high-quality drinking water for your community.

For general information, please visit Aqua's Website or contact our call center at 1.866.SLM.AQUA (1.866.756.2782).

You can also reach out to me directly with any questions about the program. "

Sincerely,

Dan Conley  
Construction Coordinator  
Office: 724-981-1200 Ext. 50715.
